To figure your quilt: Length _____ X width _____ = Sq in _____ X Price (ex: .03) _____ + 7.5% TX _____

- Included in quilting price: Thread, bobbins and finished quilt trimming – ready for binding.
- We use only Glide Polyester thread and magna-glide bobbins. Top thread and bottom thread colors may vary a little bit.
- We sew quilt edges with about ¼” seam all around and each row of quilting extends beyond the edges. We don’t recommend turning the back up for binding with this quilting method.
- If you DO NOT want your quilt trimmed, please let us know.
- We quilt all sizes from table runners to king. Your project can be up to 120” long, but there is only 113” width available on our longest machine.
- Our minimum price is \$25.
- All invoices will have tax, 7.5% added.

How to prepare your quilt for Inspire! longarm quilting

- Quilt top should be pressed well with flat seams.
- Please remove all embellishments and make sure all pieces are sewn down. There may be additional charges for us to do this for you.
- Remove all loose threads from the top and back. If your background is very light, loose dark threads may show through so clip them on the back and use a sticky roller to remove them.
- If top and/or back are directional, please pin a note to the “top”.
- Batting should measure at least 6 inches longer and wider than top.
- Backing should measure at least 10 inches longer and wider than top. (EX: top is 80X90. Backing should be at least 90X100) If we piece backing or must add leaders to a backing that is too small, there will be additional charges. Call us if you’re not sure.
- Generally pieced backing will be loaded on the frame with seam horizontally (same direction as the poles). If you want the back seam to be vertical, be sure there is enough to load top sideways. Please pin a note to the backing with these preferences.

- *TIP: Measure quilt top in 3 places (1) across top border (2) across the center (3) across bottom border. If top and bottom border measurements are 2" + larger than center, we may have to put tucks in the outer border. You can correct this by removing borders and measuring to fit better.*

Quilts are accepted during shop hours. Quilts are completed in the order they are received. A quilt may be expedited if circumstances permit.

Inspire stocks several kinds of batting and lots of wide backs (108" wide) to choose from.

Batting prices range from \$5.00 to \$19 per yard. Prices subject to change. Call us for the latest batting pricing and availability.

- Bosal Summer Batting 100% Cotton, Natural, Thin/3oz ...Perfect for Florida – 93" or 120" wide
- Hobbs 80/20 - 80% Cotton/20% Poly...Makes the quilting look great and stands up to heavy use
 - 108" Bleached White
 - 120" Natural
 - 108" Black
 - 96" Natural
- Bleached White Cotton with just a touch of poly – 62" wide
- Bamboo /Cotton blend – Natural – 96" wide – nice and soft – washes just like cotton
- Wool/Cotton Blend – Natural – very soft with a little more loft than 80/20
- Tuscany Washable Wool – high loft like poly but a soft luxurious hand – 96" wide
- 100% Polyester – mid-loft – very inexpensive and a little stiff, you get what you pay for.

We also have packaged batting but in-stock varies. We can special order but call for the latest availability & prices.

There are some of the quilting patterns we have available on our web site <https://inspirefabrics.com/pages/quilting-services>. If you can't decide on a pattern/thread color, we're happy to make recommendations for what might look best on your quilt project. Most of our customers just leave the quilting to us! If you want something special, just ask and we will try to find it for you.

Ready to bring us your quilt? Fill out a Worksheet and drop it off or mail it in.

PLEASE don't forget to add a phone number.

Shipping your quilt? We will email confirmation with expected completion date and any questions we may have when it is received. We will add actual shipping cost (least expensive way) to the invoice when we ship it back home to you.
